If the Contractor fails to correct the deficiency within the second seven (7) calendar days after receipt of the notice, the County may take whatever action is necessary, including correcting the deficient work utilizing another Contractor or terminating the contract.
- v. Should the Contractor fail or refuse to remove and renew any defective material used or work performed, or to make any necessary corrections in an acceptable manner and in accordance with the requirements of the specifications, within the time indicated in writing, the County, will have the authority to cause the unacceptable or defective materials or work to be repaired, removed and replaced, as may be necessary, at the Contractor's expense. Any expense incurred by the County, whether direct, indirect or consequential, in making the repairs, removals, or replacements, which the Contractor has failed or refused to make, shall be paid for out of any monies due or which may become due the Contractor, or may be charged against the contract bond, if any. A Change Order will be issued, incorporating the necessary revisions to the contract documents, including an appropriate decrease to the contract amount. Such direct, indirect and consequential costs shall include, such as, but not be limited to: costs of repair and replacement of work of others destroyed or damaged by correction, removal or replacement of work of the Contractor's defective work and additional compensation due the County. The Contractor shall not be allowed an extension of the contract time because of any delay in

performance of the work attributable to the exercise by the County of the County's rights and remedies hereunder.

- vi. When the United States Government or the State of Florida is to pay a portion of the cost of the project, the work will be subject to such inspection by Federal or State representatives as deemed necessary, but such inspections will in no case make the United States Government or the State of Florida a party to this contract.
- vii. All work performed and all materials furnished shall be in reasonably close conformity with the tolerances indicated in the specifications. In the event the Project Manager finds the materials or the finished product in which the materials are used and not within reasonably close conformity to the specifications, the Project Manager will then make a determination if the work shall be accepted and remain in place. In this event, the Project Manager will document the basis of acceptance by a Change Order that will provide for an appropriate deduction as needed in the contract price for such work or materials as the Project Manager deems necessary to conform to the determination based on the Project Manager's professional judgment.

12. PROJECT MANAGER

It is agreed to by the parties that the Project Manager will decide all questions, difficulties, or disputes, of whatever nature, which may arise relative to the interpretation of the plans, construction, prosecution and fulfillment of the scope of services and as to the character, quality, amount and value of any work done, and materials furnished, under or by reason of this Agreement. The Project Manager may appoint representatives as desired that will be authorized to inspect all work done and all materials furnished.

13. CONTRACT TIME AND TIME EXTENSIONS

- i. The Contractor acknowledges that time is of the essence in carrying out Contractor responsibilities. Project time shall be listed on the Cost Estimate. If no project time is listed the following shall apply:
 - a. For projects \$25,000 and under, the Contractor shall have forty-five (45) calendar days to complete the work from the date of receipt of the "Notice to Proceed".
 - b. For projects greater than \$25,000, the Contractor shall have ninety (90) calendar days to complete the work from the date of receipt of the "Notice to Proceed".
 - c. If the Contractor fails to have the project completed by the specified time, the County may, at its discretion, either apply liquidated damages or hire another company to complete the work as needed. Any additional cost incurred by the County because of the Contractor's failure to complete the project as assigned shall be deducted from the Contractor's final invoice.

SECTION 5 – ATTACHMENTS

RFP Number: 15-0201

- ii. Unless otherwise provided, contract time shall mean the number of consecutive calendar days from the commencement date noted in the properly executed purchase order to the date on which all work is to be completed. The Contractor shall diligently pursue the completion of the work and coordinate the work being done on the project by its subcontractors and material suppliers, as well as coordinate the Contractor's work with the work of other contractors so that the Contractor's work or the work of others shall not be delayed or impaired by any act or omission of any act by the Contractor. The Contractor shall be solely responsible for all means, methods, techniques, sequences and procedures, as well as coordination of all portions of the work under the contract documents.
- iii. Should the Contractor be obstructed or delayed in the prosecution of or completion of the work as a result of unforeseeable causes beyond the control of the Contractor, and not due to the Contractor's fault or neglect, the Contractor shall notify the Project Manager by telephone as soon as possible and in writing within two (2) business days after the commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which the Contractor may have had to request a time extension.
- iv. If the Contractor complies with the two (2) business days notice requirement, the Project Manager will ascertain the fact and the extent of the delay being claimed and recommend an extension to the contract time when, in the Project Manager's sole judgment, the findings of fact justify such an extension. The Contractor shall cooperate with the Project Manager's investigation of the delay by providing any schedules, correspondence or other data that may be required to complete the findings of fact. Extensions to the contract time may be granted for only those delays which impact the Contractor's schedule. Extensions of contract time, if approved by the Project Manager, must be authorized in writing.
- v. Unless otherwise agreed to, weather events are specifically excluded as excused cause for delay under this agreement and no additional days shall be given for rain days.
- vi. The County and the Contractor recognize that, since time is of the essence for this agreement, the County will suffer financial loss if the work is not completed within the time specified. The County will be entitled to assess, as Liquidated Damages, but not as a penalty, for each calendar day after the scheduled completion date the project continues. The project shall be deemed to be completed on the date the work is considered complete to the satisfaction of the County. The Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the Liquidated Damages as a penalty. The parties agree that the Liquidated Damages sum represents a fair and reasonable estimate of the County's actual damages at the time of contracting if the Contractor fails to complete the work in a timely manner. The Liquidated Damages shall be as follows:
 - Missing scheduled appointments \$ 70.00 each appointment
 - Failure to respond to emergency calls \$250.00 per day

- Late to emergency calls \$ 36.00 per hour
- Inspected unacceptable workmanship \$ 55.00 each inspection
- All Re-inspection Fees Assessed by the inspecting authority for inspection failures
- Failure to provide any and all required documentation or reports \$ 75.00 per day
- Failure to pass all inspecting authority re-inspections \$250.00 per day

(within 30 days of initial inspection)

- vii. County shall retain from the compensation to be paid to Contractor the above described sum.

14. HOURS OF OPERATION

- i. Unless otherwise specified in the technical specifications, all work performed shall be accomplished between the hours of 7:00 A.M. and 5:00 P.M., Monday through Friday, and no work shall be performed on Saturdays, Sundays, or County Holidays, unless permission to work has been requested in writing by the Contractor and approval, in writing, has been granted by the Project Manager. Request for permission to work must be received by the Project Manager no less than two (2) days prior to the requested workday. The exception to this pre-approval requirement would be in the case of an emergency in which the emergency specification as outlined in General Terms and Conditions, Section 3, Emergencies, would apply. County Holidays are as follows:

New Year's Day

Martin Luther King, Jr. Day

Presidents' Day

Memorial Day

Independence Day

Labor Day

Veteran's Day

Thanksgiving Day

Day after Thanksgiving

Christmas Day

- ii. Special schedules may be established if necessary because of problems with noise or similar problems affecting citizens in homes or buildings adjacent to the roadways.
- iii. Under no circumstance, except in the case of an emergency, will permission be given for work on New Year's Day, Independence Day, Thanksgiving Day, or Christmas Day. If the official holiday is on a Saturday the County observes the holiday on Friday and if the holiday is on Sunday the County observes the holiday on Monday. The Contractor shall not be allowed to work on the alternate day for the above mentioned holidays. The Project Manager may consider approval in accordance with the provisions stated above, for work on the following days: Martin Luther King, Jr. Day, Memorial Day, Labor Day, Veterans Day, or the Friday after Thanksgiving.
- iv. When the Contractor requests and is approved for Saturday, Sunday or Holiday work, the County may assess the Contractor the sum of Two Hundred Fifty Dollars (\$250.00) per man per day for each Saturday, Sunday or recognized Holiday worked or planned to work. These fees will be deducted from the final invoice.

15. CHANGES IN WORK

- i. The County may at any time, by issuance of a Change Order executed in accordance with the County's Purchasing Policies and Procedures, make changes within the general scope of this Agreement. If additional work or other changes are required an offer will be requested from the Contractor. Upon negotiation of the offer, execution and receipt of the Change Order, the Contractor shall commence performance of the work as specified.
- ii. The Contractor shall not commence any additional work or other changes covered by the Scope of Services for the individual project without an executed Change Order. If the Contractor performs additional work beyond the specific requirements of this Agreement without an executed Change Order, it shall be at the Contractor's own risk. The County assumes no responsibility for any additional costs for work not specifically authorized by an executed Change Order.
- iii. Change orders shall not be issued for incidental items or tasks that should have been reasonably construed to be part of the project by the Contractor.

16. RETAINING OTHER CONTRACTORS

Nothing herein shall be deemed to preclude the County from retaining the services of other persons or entities undertaking the same or similar services as those undertaken by the Contractor or from independently developing or acquiring materials or programs that are similar to or competitive with the services provided under this Agreement.

17. CLAIMS AND DISPUTES

- i. Claims by the Contractor shall be made in writing to the Project Manager within two (2) business days after the commencement of the event giving rise to such claim or else the Contractor shall be deemed to have waived the claim. Written supporting data shall be submitted to the Project Manager within ten (10) calendar days after the occurrence of the event, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived the claim. All claims shall be priced in accordance with the provisions of the section in this document entitled "Changes in Work".
- ii. The Contractor shall proceed diligently with its performance as directed by the County, regardless of any pending claim, action, suit, or administrative proceeding, unless otherwise agreed to by the County in writing. The County shall continue to make payments on the undisputed portion of the contract in accordance with the contract documents during the pendency of any claim.
 - a. Claims by the Contractor shall be resolved in the following manner:
 - 1) Upon receiving the claim and supporting data, the Project Manager will review the claim, or if the Project Manager is not a County employee, will forward the claim to the County. The County will within fifteen (15) business days respond to the claim in writing stating that the claim is either approved or denied. If denied, the County will specify the grounds for denial. The Contractor shall then have fifteen (15) calendar days in which to provide additional supporting documentation, or to notify the County that the original claim stands as is.
 - 2) If the claim is not resolved, the County may, at its option, choose to submit the matter to mediation. A mediator shall be mutually selected by the parties and each party shall pay one-half (1/2) the expense of mediation. If the County declines to mediate the dispute, the Contractor may bring an action in the County or Circuit Court sitting in Lake County, Florida.
 - b. Claims by the County against the Contractor shall be made in writing by the Project Manager as soon as the event leading to the claim is discovered by the County. Written supporting data shall be submitted by the Project Manager. All claims shall be priced in accordance with the provisions of the section in this document entitled "Changes in Work". The party to whom the Project Manager's determination is not in favor of may appeal the determination as set forth in subsection (2) above.
 - c. Arbitration shall not be considered as a means of dispute resolution.

It shall be the responsibility of the Contractor to have all underground utilities located before any work shall begin. This can be done by contacting Sunshine State One Call. They may be reached by calling 1-800-432-4770. The repairs of any damaged underground utilities as a result of the work being performed by the Contractor shall be the responsibility of the Contractor. The proper utility company shall be contacted immediately to expedite the repairs, if damage has occurred. 23. CLEAN UP/SURPLUS MATERIAL REMOVAL:

The Contractor shall be responsible for the removal of all surplus material and debris within their work zone at the end of each workday, and disposed of in an appropriate manner. All costs associated with clean-up and debris removal shall be included in the Contractor Factor. The Contractor must have ample cleaning supplies and a minimum of two (2) vacuum cleaners on-site for clean-up. At no time shall the Contractor use County cleaning supplies or equipment. Upon final completion, the Contractor shall thoroughly clean up all areas where work has been involved as mutually agreed with the County's Project Manager. If such deficiencies are not corrected as part of this process, the County shall remove the remaining debris and surplus materials and deduct the associated costs from the amount due the Contractor.

24. PROTECTION OF EXISTING STRUCTURES, UTILITIES, WORK AND VEGETATION

- i. The Contractor shall preserve and protect all existing vegetation such as trees, shrubs and grass on or adjacent to the site which do not unreasonably interfere with the project as may be determined by the Project Manager. The Contractor shall be responsible for all unauthorized cutting or damaging of trees and shrubs, including damage due to careless operation of equipment, stockpiling of materials or tracking of grass areas by equipment.
- ii. The Contractor shall fully protect the work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If the Contractor or any one for whom the Contractor is legally liable is responsible for any loss or damage to the work, or other work or materials of the County or County's separate contractors, the Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due the Contractor.
- iii. The Contractor shall not disturb any benchmark established by the County with respect to the project. If the Contractor, or its subcontractors, agents or any one for whom the Contractor is legally liable, disturbs County benchmarks, the Contractor shall immediately notify the Project Manager. The County shall have the benchmarks re-established and the Contractor shall be liable for all costs incurred by the County associated therewith. Such costs shall be deducted from any amounts due the Contractor.
- iv. During the period of production of work and the warranty period the Contractor shall be responsible for processing any and all claims for property damage and or bodily injury caused by the failure of the work including, such as but not limited to: motor vehicles or pedestrians. The Contractor shall be responsible for the payment of all property damage and bodily injury claims and agrees to save and hold harmless the County from all such claims. Claims not handled by the Contractor or their representative in the proper manner, will be settled by the County. The County shall recover all costs from the Contractor.
- v. All items damaged as a result of Contractor or subcontractor operations, such as but not limited to: sidewalks, irrigation, curbs, pipes, drains, water mains, pavement, mail boxes, turf, County sign, or other property owned by the County or private landowner, shall be either repaired or replaced by the Contractor, at their expense, in a manner prescribed by and at the sole satisfaction of the Project Manager. Any claims submitted to the County, such as but not limited to: from utility companies or landowners, which are determined to be the result of damage done by the Contractor, shall be the responsibility of the Contractor. The County reserves the right to pay any such claims and deduct such amount from the Contractor's invoice. Repairs, or receipt of repairs, will be completed and submitted to the County prior to submission of the Contractor's invoice for work accomplished. If the repair is not in accordance with County standards, the County shall repair the items and deduct the associated cost from the amount due the Contractor.

- vi. The Contractor shall replace any asphalt that has been damaged as a result of hydraulics spilled from their equipment.
- vii. Complaints shall be addressed within two (2) business days and a written report submitted to the Project Manager outlining actions taken to correct the complaint. The Contractor shall notify the County immediately of any complaints given directly to the Contractor.
- viii. If in the course of completing work as part of this contract there is an accident that involves the public, the Contractor shall as soon as possible inform the Project Manager of the incident by telephone. The Contractor shall follow up in writing within two (2) business days of the incident. If Law Enforcement was involved and has written a report, the Contractor shall forward a copy of the report to the Project Manager.
- ix. The Contractor shall be responsible for re-grading and re-sodding any areas that are disturbed by the Contractor during the course of the work being completed.

25. EQUIPMENT

- i. The Contractor shall furnish equipment of a type and quantity to perform the work satisfactorily within the time specified herein. The County reserves the right to inspect all equipment before it is placed in or while it is in service. If in the opinion of the Project Manager, the Contractor has insufficient equipment on the job to satisfactorily complete the work within the required time, the Contractor shall provide additional equipment as directed by the Project Manager. All equipment may be inspected and approved by the Project Manager before it is placed in service. If at any time, the Project Manager determines that any equipment is deficient in any way, the Contractor shall remove the equipment from service immediately, and the equipment shall remain out of service until the deficiency is corrected to the satisfaction of the Project Manager. Inspection and approval of the Contractor's equipment by the Project Manager shall not relieve the Contractor of responsibility or liability for injury to persons or damage to property caused by the operation of the Contractor's equipment, nor shall it relieve the Contractor of the responsibility to meet the established time for the completion of the service.
- ii. All safety devices installed by the manufacturer shall be in place and in proper working order at all times. At a minimum, all equipment used within the right of way shall be equipped with a slow moving vehicle sign, properly operating amber flashing or white strobe light.
- iii. The equipment used must be in good repair and operating condition at all times. This service requires that all equipment shall be environmentally safe, with no oil leaks, blowing fuel, or leaking hydraulic lines.

26. SANITATION

The Contractor shall provide and maintain adequate sanitary conveniences for the use of persons employed for this project. These conveniences shall be maintained at all times without nuisance, and their use shall be strictly enforced. The location of these conveniences shall be subject to the Project Manager's approval.

27. OTHER WORK

- i. The Contractor will cooperate with County personnel or anyone who may be engaged in authorized work prior to final completion of the project.
- ii. The Contractor shall cooperate with the owners of any underground or overhead utility lines in their removal and rearrangement operations in order that these operations may progress in a reasonable manner and that service rendered by these parties will not be interrupted.
- iii. The County may perform other work related to the project site or, in the general vicinity of the site by the County's own forces, have other work performed by utility owners or other direct contractors. If other work is not identified in the contract documents and if the Contractor believes that such performance will involve additional expense to the Contractor or require additional time, the Contractor shall send written notice of that fact to the County and the Project Manager within two (2) business days of being notified of the other work. If the Contractor fails to send the above required notice, the Contractor will be deemed to have waived any rights it otherwise may have had to seek an extension to the contract time or adjustment to the contract amount. The Contractor shall afford each utility owner and other contractors (or the County, if the County is performing the additional work with the County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its work with theirs. The Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the Project Manager and the others whose work will be affected.
- iv. If any part of the Contractor's work depends, for proper execution or results, upon the work of any other contractor other than a subcontractor or utility owner, the Contractor shall inspect and promptly report to the Project Manager, in writing within two (2) business days, any delays, defect or other problems in such other work that renders it impossible for the Contractor to obtain proper execution or results. The Contractor's failure to report will constitute an acceptance of the other work as fit and property for integration with the Contractor's work.

28. BONDS

Not applicable to this solicitation.

29. FINAL INSPECTION

- i. Maintenance of Work. The Contractor shall maintain all work in as-new condition until the final inspection is completed and the work accepted by the Project Manager.
- ii. Upon notice from the Contractor that the service has been completed, the Project Manager will make a final inspection within five (5) business days of receipt of notification. The Project Manager will notify the Contractor if necessary of any deficiencies with the project. The Contractor shall correct all deficiencies before final acceptance and payment is made. If the deficiencies have not been completed within the contracted time, the Project Manager may send out a notification notifying Contractor of assessment of Liquidated Damages that can be applied for any day over the time allowed per the contract.
- iii. The Contractor shall notify the Project Manager when the deficiencies have been completed and corrected. If the deficiencies are not corrected when inspected, the Contractor shall be notified again in writing about any deficiencies. Once the repairs have been corrected by the Contractor, the Project Manager shall make another inspection. There shall be an eighty dollar (\$80.00) inspection fee assessed to the Contractor for this inspection and any re-inspection that may be required after that. The fee is assessed to offset the additional costs associated with County labor and vehicle usage required for unnecessary inspections. The fee(s) shall be deducted from the final invoice for that release order.

30. FINAL ACCEPTANCE

- i. The contract will be considered complete when all work has been completed and has been accepted by the County and the Project Manager. The Contractor will then be released from further obligation except as set forth in the warranty and/or bonds in this Contract.
- ii. The County reserves the right, should an error be discovered in the partial or final estimates, or should proof of defective work or materials used by or on the part of the Contractor be discovered after the final payment has been made, to claim and recover from the Contractor or its surety, or both, by process of law, such sums as may be sufficient to correct the error or make good the defects in the work and materials, including any fees or costs associated with the additional services of the Project Manager.

31. MEASUREMENT AND PAYMENT

- i. **Projects fifteen thousand dollars (\$15,000) and under:** The County shall provide a lump sum payment when all project tasks are completed by the Contractor and approved by the County's Project Manager. In order for the County to provide payment, the Contractor shall submit a fully documented invoice that provides the basic information set forth below. The invoice shall be emailed to the County's Project Manager, in PDF format, within thirty (30) calendar days after the service has been rendered. - ii. **Projects greater than fifteen thousand dollars (\$15,000):** The Contractor may receive periodic payments on a thirty (30) day interval for project tasks completed during that period by the Contractor and approved by the County's Project Manager. Retention of funds shall be held in accordance with Florida Prompt Payment Act.
